

Abbey's key to success in life? Get out of your comfort zone and great things can happen!

RPI Senior Consultant

Abbey Oliver

rpi@rpic.com

Whether exploring new neighborhoods in Kansas City with her English Springer Spaniel, Charlie, taking a new recipe and giving it her own twist, or digging deeper to find the perfectly tailored software customization for a client, Abbey Oliver isn't afraid to push past her comfort zone. "In fact, when you push yourself, great things happen!" she says.

That is the exact approach Abbey brings to her work as a Senior Consultant for RPI Consultants. That is also why she enjoys being a part of the elite Imaging Strategy and Technical Services team. "One of the things I really like is that sense of pushing boundaries and going the extra mile that the whole team shares," she notes. "I believe that's why clients respect us and our contributions to their business."

Background and Experiences

Abbey graduated from the University of Kansas with a Bachelor's Degree in both Business Information Systems and Business Management. "I think that's another reason why the RPI team is a perfect fit for me," she adds. "I have always been fascinated with the technology and software, as well as the principles that drive commerce and business. Having an in-depth understanding of both is a core principle behind our brand."

Abbey has experience in a variety of fields including banking, human resources and insurance, and has developed custom solutions for a variety of applications. She has four years of experience working for Perceptive Software/Lexmark and Kofax. She has also worked with Guidewire, Peoplesoft, SAP, FileNet, and Thunderhead.

Downtime Pursuits

Abbey enjoys cooking, baking and entertaining. One of her joys in life is finding a new recipe and putting her own twist on it. She also loves to relax and recharge her batteries by taking long walks and exploring different parts of Kansas City with her cherished English Springer Spaniel, Charlie.
