

The best way to describe Jodi is to invoke her home state mantra of "Minnesota Nice!"

RPI Project Manager

Jodi Wojciak

rpi@rpic.com

Jodi Wojciak has been a Project Manager with RPI Consultants since 2015 and is responsible for project management planning, monitoring, budgeting, timeline management, resource scheduling, testing, reporting, issue resolution, and change management. That's a lot of responsibilities, but true to Jodi's reputation, she can handle it! RPI Partner Justin Braun will tell you her mind is like a steel trap. He says, "Jodi is a great listener, she hears everything - especially the things people aren't saying." Combined with exceptional organization and communication skills, this is what makes Jodi such a strong Project Manager. It's almost like she can see into a project's future!

What exactly is Minnesota Nice?

Jodi has a unique ability to make every situation and conversation pleasant, something she attributes to her native sense of "Minnesota Nice." Jodi explains, "Even when you need to have tough conversations or reset expectations, being transparent and providing options for clients help make those situations a little more comfortable." It also helps that Jodi loves getting to know her clients so well and looks forward to working with them time and again. She explains, "I try to do a great job so our clients want to do their next project with us, too."

Background & Experiences

Jodi brings to her work an Associate of Science Degree in Legal Administration, as well as a number of certifications including Networking Support Specialist, ITIL Foundations V3, and Infor Deployment Method Level 4 Certification. Professionally, she has a pretty incredible resume of project and experience, the majority of which is with Infor Lawson projects.

Downtime Pursuits

As a proud dance mom with **two daughters** in competitive dance, when Jodi isn't in the office she can usually be found shuttling between dance practice, gymnastics, or competitions. When she does find time for herself, she enjoys indoor and outdoor painting for her friends or escaping that harsh Minnesota winter to a warm beach in Mexico.

Character Strengths

Humor, Perseverance,
Teamwork, Kindness, &
Honesty.
