

# An Innovative Approach to Infor Lawson Services

Working with an experienced and trusted partner is the best way to leverage the power of Infor Lawson solutions into positive business results.

“RPI partnered with us every step of way, and their expertise and leadership were critical in helping us reach our objectives.”  
– Patrick Garvey, CFO,  
Connecticut Children’s Medical Center

As a Lawson-dedicated professional services firm, we understand the evolving market and deliver value by understanding your needs and building long-term partnerships with your team.

## Our People are the Difference

RPI is committed to the success of our customers. Our people are noted for their depth of product knowledge, communication skills, experience, and, above all else, their collaborative nature. Our team-based approach capitalizes on our broad range of experiences and assigns the right resources at the right time. This “right the first time” method delivers results on time and under budget in an increasingly complex Infor Lawson enterprise.

## Our Culture is our Greatest Asset

Our environment empowers our team members to develop and nurture the unique value only they can deliver to our customers. Because we believe in relationships, both with our customers and with each other, we base our approach not only on our skills and experience, but also on our ability to listen, analyze, solve, and guide.

The RPI difference is our people. We can be the difference in your project! **RPI: The right team, the right solutions, at the right time.**

# RPI: The Infor Lawson Experts

## Implementation Services

At RPI, we never forget why you chose Lawson in the first place. From kick-off through go-live, we always keep our focus on achieving your desired business results. RPI's consulting model emphasizes first listening to you and understanding the complexities of your business. Our team-based methodology allows us to leverage the best resource on a task by task basis, never parking a consultant on-site waiting for something to do. This flexible approach to consulting services maximizes value while minimizing cost.

As an Infor Alliance partner, RPI leverages past expertise in Lawson and best practices to ensure an on-time implementation of:

- Financials & Supply Chain
- Human Capital Management
- Global HR / Talent Management
- Infor Technologies and CloudSuite
- Imaging Strategy & Technology Services

## Take the Next Step

### Global HR & Talent Management

The RPI team has extensive experience helping organizations prepare for transforming HCM and implementing Global HR and Talent Management.

### SCM Optimization

Our team can help you lead a SCM transformation initiative, empowering your organization to continuously improve processes and staff utilization. Allow RPI to help you enhance customer service, reduce errors, ensure long term success, and establish operational rigor.

### Upgrades & Infor Cloud Migrations

RPI has a level of experience with Lawson upgrades and migrations that few competitors can match. We have completed projects across all platforms (Windows, UNIX, and the System I) and across the full spectrum of Lawson products including many advanced and unique configurations.

RPI was flexible, working with our schedule and meeting our specific needs. With their help, we were ready to move forward with our upgrade.”

– Tom Farry,  
Director of ERP Materials Management  
Bon Secours Health System

## Business Process and System Optimization

As part of our business process review, RPI works with your organization to map existing processes, outline staff responsibilities, and analyze Lawson data. We use this information to recommend and implement improvements that increase departmental efficiencies and reduce time dedicated to mindless transaction processing time. These improvements allow resources to focus on continuous improvement and proactively seek opportunities to improve customer service, reduce errors, and further develop operational efficiencies.

## Assessment, Strategy and Roadmap Services

Following a proven methodology, our experts analyze processes around the use of Lawson and associated software, identifying opportunities for improvement – all of which provide a roadmap to results.

## Business Intelligence, Analytics and Reporting

Make the most of your investment by delivering the right information to the right people at the right time, empowering your staff to make informed decisions, act proactively, and serve your customers better.

## Technology and Integration

The Lawson community recognizes RPI for our technology leadership and systems integration. Our Technology Center of Excellence in Tampa is at the top of the Lawson technology curve with Configuration Console, IPA, Landmark, LSF 10x, Infor Cloud, Infor Xi, and other technologies.

RPI is a leading provider of Lawson system integration services for dozens of 3rd party software solutions and systems. We also offer Managed Services for organizations looking to consistency and level of service.
