RPI's Infor Lawson operational and technical expertise optimizes your Supply Chain throughout the enterprise.

## Optimize your Supply Chain

### Lawson Optimization Assessment

Our deep understanding of Lawson forms, tables, and functionality combined with best practice expertise delivers results that make a difference. Our recommendations create process improvement opportunities that increase departmental efficiencies and reduce transaction processing time.

### Lawson SCM Transformation

RPI can help you implement a supply chain transformation initiative by empowering your organization to continuously improve processes. We can also provide staff mentoring and training, as well as helping you leverage Lawson's powerful functionality to improve ordering, receiving, and supply processes. Allow RPI to help you enhance customer service, reduce errors, ensure long-term success, and establish operational rigor.

### Contract Management

Lawson's Contract Management and Strategic Sourcing applications offer powerful tools that help you control how contracts are created, managed, and monitored, improving visibility for pricing and compliance. Talk to one of our Senior Lawson Consultants today to learn how this powerful new module can:

- Automate the Contract Lifecycle
- Report on Contract Milestones
- Rebate Management
- Manage pricing for X items
- Monitor expiring Contracts
- Increase Contract Compliance

Thanks for everything!  
The RPI team did a great job and really moved us forward. I hope to have the opportunity to work with you again."

– Steve Silva,  
Vice President, Supply Chain  
Care New England

## Interim Support

RPI consultants are capable of providing transitional and leadership roles for your supply chain staff. Whether you need an interim director, a staff member, or an MMIS specialist, RPI can help. Ask us how our seasoned staff and proven solutions can leverage interim opportunities to create transformational change in your organization.

## Business Intelligence and Analytics

Our years of business process optimization experience has taught us the value of good information. The right data to the right people at the right time – every dashboard, report, and smart note we design adheres to this tenet. We keep the dashboards simple to avoid “notification fatigue.”

RPI knows effective dashboards take a holistic view of how transactions flow across the dashboards, highlighting where more attention is warranted. Our team can help you improve productivity with quick access to information by customizing presentation and content that caters to individuals at all levels of the organization, from Managers to Executives.

## RPI: The right team, the right solutions, at the right time.

With decades of experience optimizing Infor Lawson in the Healthcare market as well as other service industries, RPI understands how to make Lawson work to accomplish your business goals.

As an Infor Alliance partner, RPI is informed and educated on the latest software developments. Find out what the new Infor Lawson can do for you and how RPI can get you there.
