

Whether working the Butler High Ropes Course, or mapping out details on an RPI Project Plan, Bailey emulates Ben Franklins' quote "A place for everything, everything in its place!"

RPI Project Coordinator

Bailey Bettis

rpi@rpic.com

Like all super-organized people, Bailey is big on lists. Her meals are always mapped out and she tracks monthly budget goals in spreadsheets. But it's her wardrobe that separates her from the pack of would be organizing superstars. Bailey has organized her entire wardrobe in MS Word by item and color, including pictures, so she can plan outfits in advance! Life isn't all details, though, Bailey's adventurous side often finds her in the gym kickboxing, or even rock climbing on a mountain!

A Great Organizer to Have on Your Team!

Still, it is Bailey's passion for organizing (and not kickboxing) that helps her shine as a Project Coordinator for RPI Consultants. She knows that communication and planning are the keys to successfully helping clients with a system upgrade or fresh installation. "My job is to be the middleman between the clients and developers. I make sure the clients get all their questions answered and keep them informed about their project."

Background and Experiences

Bailey graduated from Butler University in Indianapolis with a B.A. in English with an emphasis on Public and Professional Writing, and a minor in Business. "I'm also proud to be certified in Scrum methodology," she notes. "This is where business innovation is headed, as it gives enterprises flexibility and adaptability, which are both very critical in this fast-paced world." Prior to joining RPI, Bailey worked for a non-profit in Indianapolis whose goal was to expand the technology industry.

Downtime Pursuits

Bailey relaxes by reading or watching a movie on Netflix, often while sipping one of her favorite teas. She enjoys matcha in the morning and herbal in the evening! For eight years Bailey has also practiced kickboxing. Her regimen includes five sessions a week. "I like that it keeps me sharp, keeps my edge," she says. "and it's also a great workout!"
