

A lot of people at RPI subscribe to the mantra "Work Hard, Play Hard," but for Richard it really means taking advantage of every situation and every opportunity.

RPI Senior Consultant

# Richard Creavalle

[rpi@rpic.com](mailto:rpi@rpic.com)

Richard says he's been lucky to have been exposed to so many great companies and products throughout his career and likes to think that he's taken advantage of those opportunities. Based on his laundry list of technology, product, and solution certifications, it's safe to say that he has. "I would say that every company and project I've had has helped me grow and become a better consultant," Richard says.

## Kofax Consulting Guru

Of all the experience Richard has gained, the majority of it has been focused on Kofax products, including Capture, KTA, KTM, Import connector, and Kofax's Mobile Capture Platform. It's this experience that made him stand out as RPI continues to make significant investments in our Kofax partnership. "I love Kofax products because they really make a difference in the productivity and efficiency of our clients' workflows."

## Background and Experiences

Richard graduated from Howard University with a Bachelor of Science in Computer Engineering and then from Florida International University with a Master's of Science in Management Information Systems. If that wasn't enough, he also has a number of technical including Stellent Image Management and IBPM Design, Analysis, and Administration from Oracle, and product specific certifications for OnBase and Kofax products, including Capture, KTA, KTM, and Import Connector. Richard isn't all product though, he's also gained solution specific certifications in Accounts Payable.

## Downtime Pursuits

Whether it's training for a triathlon - "cycling is my favorite!" - or marathon, or picking up the latest gadgets, Richard says that it's all about pushing yourself to learn something new every day. "To me, learning every day is the key to a healthy future," he says, "whether it's learning a better way to train or learning a new technology language."

### Product Knowledge

Perceptive / ImageNow  
OnBase by Hyland  
Brainware by Hyland  
Kofax KTM / KTA / Capture
